

Dr. Staples discusses incremental student growth on SOL scores (:24)

I think what we're seeing across the state is continued positive incremental growth in the outcomes for students. Given where we are with proficiency around the state, it's unlikely that we're going to see huge five, 10, 12-point gains over the course of time because we're still adapting to the more rigorous higher expectation standards that the board put in just a few years ago.
